

MOEN CARTOON COURSES

LOOKING AHEAD!

Fall is coming! Our favorite season! We're hoping to see everyone in our upcoming classes soon!

RECENT CLASSES

Summer is going by quickly! We've had a great time teaching cartoon character drawing with the Fine Arts Academy, but we also had a chance to roll out a new class, "Cartoon Workshop" for our older/more advanced students. Both classes were 8 weeks long, and were a hit!

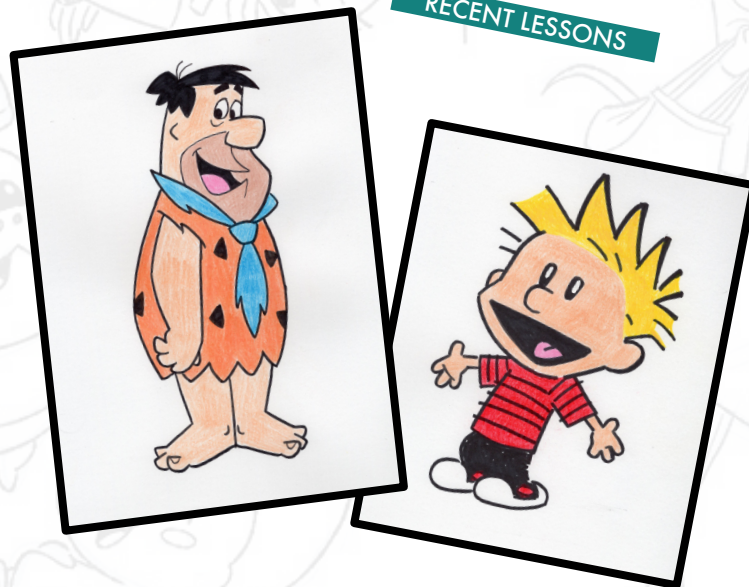

The Fine Arts Academy performing arts students put on a production of "The Lion King Jr." In promotion of that musical, we hosted a free Lion King drawing class where we drew young Simba. Almost 40 people came out for that, so thanks to those who did, and we hope you had fun!

Starting in August, we've got 2 locations for our Cartoon Character Drawing Class. As usual, we will be offering the class at the Seymour First Baptist Church Fine Arts Academy. This class will be offered in blocks of 6 or 12 weeks, and will meet after school on Tuesdays, from 3:45pm-5pm. Register for this class [here](#).

The second (and newly added) location is in Maryville, at Pleasant Grove Baptist Church. We've had several requests to hold a class in Maryville over the summer, and thankfully, this church has graciously offered to host the class! It will be 12 weeks long, but can also be registered for in blocks of 4 weeks. Registration is going to be done through email for this class: info@moencartooncourses.com

The One-on-One Virtual Mentorship continues to be the most flexible and personal instruction we offer, and information on that can be found on our [website here](#).

FREE EVENT COMIN' UP!

In October, the Fine Arts Academy will be performing a stage adaptation of the classic cartoon special, "It's the Great Pumpkin, Charlie Brown", around the same time that Seymour First Baptist Church hosts their annual pumpkin patch.

So to promote the play, the pumpkin patch, and our cartoon classes, we will put on a FREE drawing class IN THE PUMPKIN PATCH (weather-permitting) where we draw a character from "It's the Great Pumpkin, Charlie Brown." (It won't be one of the lessons we've done of Peanuts characters from past classes).

The planned date for this class is October 17th, and the time will be announced in the future, so please follow us, and Seymour FBC Fine Arts Academy, on facebook and/or instagram for further details on that class (including the possibility of rescheduling it due to weather).

There will be a [forthcoming signup](#) for this class since space and supplies are limited, so check those social media accounts and website for updates on when that becomes available!

WHAT'S TIM WORKING ON?

Something I've been quietly involved with for almost a year at this point is building a new children's entertainment company with some of my colleagues from the entertainment industry.

We will launch with a puppet show that aims to premier on YouTube in the near future. While I can't share the name of the show yet, I can tell you that it's about a very curious bear. It's a very fun (and funny) show!

Building a puppet is something I've never done before, and it took me nearly three months to research and build this character. He was co-designed by myself and one of my animation colleagues, and is puppeted by our Emmy-Award-winning writer. We can't wait to put him out there in the world, and hope you will consider liking, commenting, and subscribing when we officially launch!

Designing and building a puppet!
